## profile

We are one of the notable manufacturers of quality lead-acid batteries. We provide a wide range of high performing batteries for various applications and are meant to endure tough conditions and weather conditions. Our portfolio of wide range of batteries include batteries for E-rickshaw, tubular, and automotive. We have forayed into the battery industry with the sole purpose of making a high impact on the market

STT-18036	12	165	36* (30+6) Months
STT-18048	12	170	48* (36+12) Months
STT-22036	12	220	36* (30+6) Months
STT-23048	12	230	48* (36+12) Months

A truly knowledge driven company, with innovation at its heart, Sarex develops intelligent power back-up solutions, engineered to be energy efficient and thus reduce the user's carbon footprint. Working further towards a cleaner, greener planet, we are branching out towards ecofriendly inexhaustible energy solutions like solar power. We see ourselves as change agents in the critically important sphere of energy, working for a better tomorrow. Sarex's commitment to "Better products through better technology" and "providing total customer satisfaction through internationally recognised quality" has transformed into business excellence. Sarex has now the largest installation base, which is growing month after month & year after year.

SOME KEY FEATURES

- Low Maintenance & High Performance
- Excellent recovery from deep discharge
- New Long Life Separators
- Better Thermal Management in the system
- Enhanced plate length & Upgraded Grid design for high power density
- High Purity Lead Oxide for Active Material
- New Aesthetic Durable Container
